BY DIFFERENT ROUTE

Than the One Expected Did Shafter Reach Land.

WHY WHEELER WAS MIFFED

The Santiago Hero Executed a Movement to Get In Rear of His Fellow-Officer Before the Latter Could Fire a Salute.

New York, Sept. 2.—General Shafter and his staff were landed from the City of Mexico shortly before 1 p. m., being taken off in the auxiliary gunboat Aileen.

General Young was at the pier at the time. The coming ashore at the float of the commander and his staff was unexpected.

General Wheeler had the cavalry drawn up at the quarantine pier and the guns waiting to salute General Shafter. He was not aware that General Shafter was on shore until General Shafter and his staff had been driven to the detention hospital in carriages.

General Wheeler was a little put out when he learned that General Shafter had landed. General Shafter appeared in good health when he came ashore. On the City of Mexico, with the general and staff, came one company of the First regular infantry. No report as to their condition has been made.

General Wheeler, when informed that General Shafter was ashore, ordered the salute of 15 guns fired. It was difficult to get near General Shafter at the detention camp, but the commander of the Santiago campaign sent word to the correspondents that he was glad to be an American soil once more, but was sorry to learn that so many of his men had died and were still sick at Montauk. He said, however, that had the troops remained in Santiago they would have fared much worse.

Surgeon Mayer, who came north on the Allegheny, had something to say as to the condition of the transport.

It was on this vessel that 14 Ninth Massachusetts men died. Surgeon Mayer stated that when the Allegheny left Santiago there were but 12 sick men on board, but illness developed quickly on the vessel, and when out a few days deaths occurred at the rate of three a day.

The Massachusetts men and First Illinois men were landed from the Allegheny and the 145 sick were sent to the hospital. The men from the City of Mexico were also taken ashore.

Hospital Conditions Improved.

Chickamauga, Ga., Sept. 2.—So materially have the conditions in the hospitals improved during the last few days that there is now but little complaint. The number of patients is decreasing rapidly, and there are but few deaths. A number of sick men unable to travel are left by each departing regiment, and on this account the general hospitals must be maintained for some time to come. General Boynton, chairman of the National park commission, has arrangements made to begin improving the sanitary conditions at Chickamauga soon after the departure of the Third corps. A large crematory to burn the accumulated refuse will be built and gangs of men will be put to work all over the reservation.

Will Inspect the Camp.

Washington, Sept. 2.—It is understood here that President McKinley will spend the day in New York, though as he desires to avoid attracting attention, his movements are not to be made public in advance. He will be joined by Secretary Alger at Camp Wikoff Saturday morning, and will then proceed to inspect the camp unofficially. Secretary Alger will return to Washington Sunday afternoon and possibly the president will do the same.

Two More Deaths.

San Francisco, Sept. 2.—At the division hospital there are 92 patients from the Seventh California regiment, 75 from the Tennessee, 52 from the Iowa, 35 from the Twenty-third and 25 from the Twentieth Kansas. Two deaths have occurred since the last report—those of Private R. S. Garrett of the Seventh California and Barton J. Brown of the Fifty-first Iowa.

Will Go to Armories.

Washington, Sept. 2.—Governor Tanner has recommended to the war department that the Illinois regiments with armories be sent direct to those armories instead of to Springfield to be mustered out. Those having no armories will go to Springfield. This recommendation will be complied.

Iowa to Be Scraped.

New York, Sept. 2.—The battleship Iowa was gotten into the new dry dock at the navy yard here. Her bottom was in fairly good condition. The work

of scraping down the vessel will occupy about three days. The Iowa is the first ship to be docked in dry dock No. 3.

Another Transport Arrives.

Corunna, Spain, Sept. 2.—The Spanish transport Isle de Panay from Santiago de Cuba, about Aug. 16, has arrived here with a detachment of the surrendered Spanish troops on board. There were 17 deaths on board the steamer during the voyage.

Moving Camp Thomas Troops.

Chickamauga, Ga., Sept. 2.—The Third corps, division headquarters, division hospitals and ambulance corps leave Camp Thomas Friday for Anniston, Ala. The regiments of the First division of the corps will also begin moving at the same time. It will be impossible to get all the regiments of the corps out this week, but they will be handled as rapidly as possible, and will probably all be gone by Tuesday or Wednesday of next week. All the artillery batteries are expected to get away before Saturday night. General Breckinridge is very anxious to start them home, and believes he will be able to get transportation for all Friday and Saturday.

Expects an Investigation.

Washington, Sept. 2.—Surgeon General Sternberg sent the following letter to a New York medical publishing house, which had made inquiries of him, concerning the conduct of the war with reference to the medical department and especially about the subject of having an immediate investigation of his bureau. He says: "I am ready at any moment for a complete investigation with reference to my administration of the affairs of the medical department; but the war department is not disposed to make such an investigation as the result of sensational newspaper articles. There is at present an evident craze to criticize without regard to truth or justice. I have no doubt there will be a congressional investigation into the conduct of the war; but I do not feel at liberty at present to insist upon an investigation for my own vindication."

Will Go to San Juan.

Ponce, Porto Rico, Sept. 2.—General Brooke notified Captain General Macias, the Spanish commander at San Juan that Rear Admiral Schley and General Gordon, the American Porto Rican peace commissioners, had sailed for San Juan. General Brooke, who is also a member of the commission, asked if there was any objection to his proceeding overland with an escort. The reply of General Macias was sent by wire, and said there were no objections. Consequently General Brooke has arranged to leave Saturday with his staff, escorted by troop H of the Sixth cavalry.

In Answer to Miles.

Washington, Sept. 2.—A dispatch has been received at the war department from General Miles, asking why the troops in Porto Rico have not been paid. The explanation is given that the paymasters with money for the troops were at Santiago and ready to proceed to Ponce, but General Miles objected to these paymasters, saying they would bring yellow fever infection with them, or the money might be infected while on board the ships. Other paymasters have since been dispatched to Porto Rico to pay the troops that remained there.

Will Be Mustered Out.

Camp Mead, Middletown, Pa., Sept. 2.—Major General Graham issued orders assigning the Sixteenth Pennsylvania battalion to the Second division of the Second brigade and the Second West Virginia and the Eighteenth Pennsylvania to the First brigade of the First division. The Sixth Pennsylvania regiment expects to leave Monday on a 30-day furlough. At the expiration of that period the troops will report at Mount Gretna to be mustered out.

Home on Furloughs.

New York, Sept. 2.—The Thirty-third and Thirty-fourth Michigan volunteers will leave Camp Wikoff for home, having been granted furloughs.

General Miles Coming.

Washington, Sept. 2.—The war department is advised that General Miles departed for this country from Ponce on the transport Auckland.

Washington, Sept. 2.—The monthly statement of the receipts and expenditures of the government for August shows that the receipts from all sources aggregated \$41,732,797, an increase of \$22,759,093 over August 1897. The expenditures for the month aggregated \$56,260,717, an increase of \$22,672,670. The heavy increase on both sides of the ledger are due to the war.

Fire's Work In an English Town.

Bristol, England, Sept. 2.—Fire here gutted several warehouses and other buildings, including the great Colston hall, where the trades union congress has been holding its sessions and which contained a magnificent organ. The loss is estimated at \$750,000.

KEPT UP POPULARITY

By Spending Large Sums of His Employer's Money.

A CONFESSED EMBEZZLER.

Sensational Downfall of Ex-Mayor Twitchell of Bath, Who Appropriated Sixty Thousand Dollars on Installation Plan.

Bath, Me., Sept. 2.—Ex-Mayor Fritz H. Twitchell, one of Bath's most prominent citizens, is a confessed embezzler.

He is a member of Governor Power's council, and well known in business circles in Maine and Massachusetts. The amount of the embezzlement is placed at \$60,000, but it may exceed that sum.

It is alleged that for the past 14 or 15 years, during which Mr. Twitchell has been connected with the Worumbo Woolen Manufacturing company, various sums have been appropriated by him. These amounts were charged to the expense account so that the business had not become involved at any time. When confronted with the evidence, Mr. Twitchell acknowledged his guilt, but it is thought no prosecution will follow, as the one most deeply involved is Galen S. Moses, treasurer of the mills, who is inclined to treat the matter as one of personal wrong rather than an instance of criminal intent.

Mr. Twitchell, who is at his summer home at Popham Beach, is in very poor health. He refuses to discuss the situation.

The disclosures in the case were precipitated by the personal assignment of Mr. Moses, which was announced Tuesday, and in which more than \$400,000 worth of property is involved.

Mr. Twitchell was chosen mayor in 1891 and 1892. He was sent to the legislature in 1893 and 1894, and this year he was selected a member of the executive council.

He has been grand commander of the Masonic commandery of Maine and is past grand chancellor of the Knights of Pythias.

Charged With Embezzlement.

New York, Sept. 2.—Funch, Edye & Company, the shipping agents, have caused the arrest of Samuel Harris, a custom house broker. It is alleged that Harris has collected from the firm about \$2,000 for tonnage dues to the government, which he misappropriated, but the complaint against him charges specifically only \$78.90 as the amount. This was for dues on the steamship Panama, which sailed from this port last April with Spanish refugees, and was captured later in Florida waters.

Lost His Life In the Storm.

Savannah, Sept. 2.—Second Mate Garibaldi of the Italian bark Noe was drowned here during the storm. He was trying to reach shore from his boat, but was blown from the life line. All trains are delayed by washouts. Nearly all the tents and clothing of the garrison at Tybee were blown into the ocean. All records were lost and considerable confusion will result when pay day comes or a muster out is ordered.

Smallpox at Put-In-Bay.

Columbus, O., Sept. 2.—Secretary Probst of the state board of health states there is no danger to the state from the 26 cases of smallpox at Put-In-Bay. Of the number 21 were colored waiters at the hotel. The house used for hospital or quarantine purposes is the old quarters for the colored servants about the hotel, and they are 400 yards or more from the hotel. The disease has never been nearer to the hotel than that.

Ordered to Pana.

Galesburg, Ills., Sept. 2.—Battery B of the Illinois National Guard received orders to leave at once for Pana, Ills. Sixty men with five Gatling guns under command of Lieutenant Frank Henry will start immediately on a special train. Trouble between the striking coal miners and deputy sheriffs is feared because of the efforts of them ine operators to import colored miners.

His Love Made Him Insane.

Seattle, Wash., Sept. 2.—Dr. E. F. Adams of New York, who arrived here Tuesday from Alaska on the steamer Roanoke, has been declared insane. Adams was one of the party that had a large amount of gold stolen at St. Michaels, and it is thought that brooding over it unbinged his mind. It is stated that Adams represented a Chicago syndicate in Alaska.

Baltimore, Sept. 2.—The Republicans of the Second Maryland congressional district unanimously renominated W. B. Baker of Hartford county.

WELCOMED HOME.

Former Neighbors of President and Mrs. McKinley Greet Them.

Canton, O., Sept. 2.—A grand demonstration occurred here at noon in honor of President McKinley and Secretary of State Day.

The people of the community turned out en masse and from the depot to the Barber residence, where the McKinleys are the guests of Mrs. McKinley's sister, the streets were bright and cheerful with flags.

The arrival was so near the noon hour that employees of many factories succeeded in securing an early shut-down and joined the throng about the station.

President and Mrs. McKinley were driven direct to the Barber home, where their stay of a few hours was shorn of all formality.

Toward the latter part of the afternoon a carriage was called and the president and Mrs. McKinley drove to Wesleyan cemetery, which they always do when in Canton, to visit the graves of their two children, buried there years ago, and of the president's mother, who was laid to rest last winter.

About 4 p. m. they boarded a special train on the Pennsylvania lines and proceeded eastward. Major Webb C. Hayes, as well as Colonel and Mrs. Myron T. Herrick, were of the east-bound party leaving here.

The president seemed to greatly appreciate the greetings of his old neighbors and friends, and just as the train was starting he stepped upon the rear platform to say a few words to them. He only had time to say: "It always gives me pleasure to meet you and it is always with great regret that I leave you."

This sentiment was greeted with cheer after cheer, and before the president could say more the throttle of the engine had been opened and his train was under way.

Communication Established.

London, Sept. 2.—The war office was relieved by the receipt of a dispatch from Cairo explaining the sudden interruption of news from the Sudan, which gave rise to some uneasiness as to the movements of the Anglo-Egyptian column now advancing toward Omdurman, under General Sir Herbert Kitchener. It appears that telegraphic communication was interrupted because the wire about midway between Metemeh and the sixth cataract of the Nile had been damaged by a severe storm.

To Establish a Pacific Cable.

New York, Sept. 2.—At a meeting of the directors of the Pacific Cable company held at the office of J. P. Morgan & Company plans were considered for establishing cable communication with the Philippines, the Asiatic coast, Japan and Australasia via Hawaii. Surveys for a duplicate cable via Sitka and the Aleutian islands were ordered. James A. Scurry, president of the Pacific Cable company, will sail from Vancouver for Japan on Sept. 12.

Heard Americans.

Quebec, Sept. 2.—The American commissioners began hearing representatives from the United States. Only half an hour was given to each representative. Up to 11 o'clock the Gloucester men, representing the New England fisheries, the men representing the Boston chamber of commerce, and Warner Miller of New York had been heard. Mr. Miller is here in the interests of the pulp paper industry.

One Place For Populists.

Milwaukee, Sept. 2.—A plan was started late that is expected to bring about harmony in the Democratic ranks. It is now proposed to give J. F. Schindler of Milwaukee the nomination for insurance commissioner on the Democratic ticket, that being the only place to be given the Populists on the basis of fusion. Whether the Populists will take kindly to the proposition remains to be seen.

May Indict a Senator.

Wilmington, Del., Sept. 2.—United States District Attorney Lewis C. Vandergrift is preparing to present to the federal grand jury, which will reassemble in this city next Tuesday, additional evidence in the case of the government against United States Senator Richard R. Kenney, charged with aiding and abetting William N. Boggs to misapply funds of the First National Bank of Dover, Del.

Won't Visit Cincinnati.

Cleveland, Sept. 2.—It has been supposed that the president might return to Ohio next week to attend the Grand Army reunion at Cincinnati, but it was definitely announced that his official duties in connection with the peace negotiations will prevent him from so doing.

Nearly All Were Ill.

New York, Sept. 2.—The ambulance ship Shinnecock, with 271 sick soldiers on board, arrived here from Montauk Point. Only about 20 of the men are well enough to be granted furloughs.

NO ADVANCE IN WAGES

Conference of Glassblowers Suddenly Ended.

BIG LOCKOUT IS PROBABLE.

Manufacturers Give an Ultimatum to the Committee of Employees, Which Is Rejected—Factories to Be Run by Workmen.

Indianapolis, Sept. 2.—The conference between the wage committee of the Union Glass Blowers of the United States and Canada and the wage committee of the Flint Bottlemakers, which has been in session two days in this city trying to agree so that the factories might arrange to start the first week in September at the usual time, came to an abrupt end by the declaration by the bottlemakers that they would not grant an increase in wages, and they would enforce a lock-out until the men returned to work at the present wages.

They also announced that they will not treat with the men again unless the committee comes authorized to act for the union and to accept the present scale.

The committee of blowers had a subsequent meeting at the Occidental hotel and decided under no circumstances would they accept the present scale another year, and in order to afford employment to the out-of-work men several new bottle factories will be started by the men. Just how many or where they will be located was not decided on.

A Note From Shafter.

Indianapolis, Sept. 2.—Mr. C. S. Hammond of this city, while in Chicago recently noted the enthusiasm with which General Shafter's picture was received when displayed at a fireworks celebration. He wrote to General Shafter, enclosing a newspaper clipping telling how the masses felt toward the general, and has received the following reply from Shafter: "Thank you very much for the clipping and for your kind note. I hear from so many sources about the favor with which my campaign has been received that I think I can hardly realize it. The glory of this campaign is due to the gallant army that I command; one of the best that ever bore the colors of their country, at home or abroad."

Kentucky's Sick.

Louisville, Sept. 2.—Governor Bradley will start the hospital trains to Chickamauga and Newport News to bring home the sick Kentucky soldiers at those camps on Saturday.

Indiana Theater Burned.

Richmond, Ind., Sept. 2.—Bradley theater, one of the finest in Indiana, was completely destroyed by fire. Loss, \$25,000; insurance, \$5,000.

Forced the Miners Out.

Pittsburg, Sept. 2.—Four hundred striking coal miners under District President Dolan marched from Monongahela City to the Irv and Catsburg mines and forced the 60 men at work to join the strike. A camp will be established near the mines to prevent the operation by non-union miners. The purpose of the strike is to compel the payment of the Chicago scale of prices in the third pool.

Ultimatum to Steel Strikers.

Cleveland, Sept. 2.—General Manager Schuyler of the American Steel and Wire company issued an ultimatum to the strikers at the American mill, in which he says: "We are going to run this mill, and we are going to run it full before long. The jobs are there for the men if they want them, and if they do not they must stand aside and see others take their places."

Buried Under Falling Walls.

Cleveland, Sept. 2.—A brick building at the corner of Pearl and Church streets collapsed, burning a half dozen men who were at work tearing down the structure. A large crowd immediately gathered and willing hands were soon at work throwing piled up bricks and mortar which covered the men. All were taken out alive. Two, however, are seriously injured.

Army of the Potomac.

Niagara Falls, N. Y., Sept. 2.—Many distinguished members of the Society of the Army of the Potomac are here to attend the twenty-ninth annual reunion of that organization. Representatives of the different corps held their annual meetings. These meetings were followed by a business meeting of that society.

Rate War Imminent.

Chicago, Sept. 2.—Grand Army rates from St. Paul to Cincinnati have been Omaha roads have given notice that was \$17.50 for the round trip. The Omaha road have given notice that owing to the secret cuts of their competitors it will make a \$14 rate.

DEMOCRATIC TICKET

FOR CONGRESS,
 MORDECAI WILLIAMS,
 of Boyd County.

For Kentucky—Fair; continued high temperature; southerly winds.

SECRETARY ALGER doesn't seem anxious for the charges preferred by General Miles to be investigated. He says if Miles doesn't talk any more, there'll be no official inquiry.

THE BULLETIN's suggestion that the city buy the fair grounds and convert it into a park seems to meet with favor. The Ledger is in for it, judging by this:

Now that Maysville has broken the chain that has so long linked her to the dead past, it would be a good idea to provide a park for her people. The fair grounds can be bought at a very reasonable price.

OHIO REPUBLICANS.

Brown County Convention Slimly Attended.
 The Ticket—Postoffice Plums.

GEORGETOWN, OHIO, August 31.—The Republican county convention was held in the opera house in this city to-day, and was slimly attended.

The following were nominated: Dr. Sheldon, Auditor; R. K. Livingston, Sheriff, and Wm. Francis, Commissioner. No candidate was named for Infirmary Director.

The new Executive is composed of Lee Edwards, of Ripley; M. E. Shinkle, of Lewis; H. C. Loudon and W. S. Pangburn, of this city, and Charles Snyder, of Mt. Orab.

James Gardner was indorsed for the Ripley postoffice, and W. E. Hall for the Georgetown postoffice.

Labor Day Proclamation.

Governor Bradley has issued the following proclamation, naming September 5th as a Labor Day and a legal holiday:

STATE OF KENTUCKY,
 EXECUTIVE DEPARTMENT.

In conformity to the statutes of the United States and of this State, September 5th is set apart as a legal holiday and designated as Labor Day.

This is a suitable and just recognition of those who in workshop, field and elsewhere have contributed so much to build up the material resources of the country and dignify manual labor.

It is recommended that all places of business be closed on that day, and that employers excuse as many of their laborers as they can consistently, so that the sons of toil may congregate in large numbers and enjoy the holiday set apart by State and National statutes for their benefit.

This, August 1, 1898.
 WILLIAM O. BRADLEY,
 Governor of Kentucky.

Three Real Estate Sales.

Mr. J. J. Fitzgerald, the plumber, sold his house and lot in rear of the property of Mr. E. A. Robinson, Mr. Harry Taylor and Messrs. McClanahan & Shea to the last named parties for \$600 and other considerations. Mr. Fitzgerald then bought of Mr. C. H. White the three-story business house occupied by Mr. R. H. Pollitt on west side of Suttan street for \$3,000. Mr. White afterwards purchased the three-story house adjoining on the north from the Bank of Maysville, the price paid being \$3,000.

School Will Open Tuesday.

Monday, September 5th, Labor Day, being a national holiday, the city schools will not open until Tuesday, September 6th.
 JOHN C. ADAMSON,
 Secretary Board of Education.

HON. MORDECAI WILLIAMS is expected to be in Maysville on Labor Day, Monday, September 5th, and will address the big crowd at the fair grounds in the afternoon.

MURPHY, the jeweler, will make prices from day to day that will interest the buyers. For instance o-size gold-filled watch, warranted for twenty years, \$12.75; regular price \$20. Six size gold-filled watch, warranted twenty years, \$13.50; regular price \$25. Eighteen size gold-filled watch, regular price \$25, \$13. We have other bargains. Call and learn what they are. Murphy, the jeweler, leader of low prices.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. O. Hannick & Co., of Shelby, N. O. Trial bottles free at J. James Wood's drug store. Regular size 50c. and \$1. Every bottle guaranteed.

PUERTO RICO.

Interesting Letter From Mr. Chas. Fitzgerald About the Far-Off Island.

People of Ponce Are "Very Much American"—Picturesque Scenery—Soldiers Nicely Treated.

The following letter from Mr. Charles Fitzgerald, a son of ex-Jailer Fitzgerald, will prove of special interest to his many friends in Maysville. Mr. Fitzgerald enlisted in the Nineteenth regiment at St. Louis, and was among the first of Uncle Sam's soldiers to reach Puerto Rico:

UQUADO, P. R., Aug. 18, '98.

Dear Sister: We have just landed at Viaudo, and are camped outside the city. The mail arrived just as we did and there are many happy hearts in camp to-day, I being amongst the number as I received your letters and three or four from St. Louis. I am glad you are well and getting along nicely.

We arrived at Ponce Bay on Sunday, but were not transferred to the land until the following Wednesday, and you can imagine how glad we were to set our feet on terra firma, after a voyage of nearly two weeks on the water. Ponce is a beautiful little city, about the size of Maysville. The houses are principally one or one and half stories high, of unique and picturesque construction, that is the better class. The poorer class are contented with their little shacks of rough boards, with no pretensions of architecture whatever. The costumes are very much American, and you would be surprised to see so much taste displayed in this far-off island. On our arrival in the city Ponce, we were greeted with loud hurrahs of "Porto Rico Americana," by the whole populace, and the citizens tried in every way to show their good will and kindness towards us. But we were not destined to remain long at Ponce, as the following day we commenced our march across the island to lay siege to San Juan.

Talking about Napoleon crossing the Alps, his march, if I can glean anything from history, is not to be compared, at least, from the standpoint of scenery, for I do not think prettier or more unique scenery exists than that which the eyes beheld as we passed over the mountains of Porto Rico. It took us two days to accomplish six miles, and at their expiration, we were compelled to stack arms and go into camp, as the oxen that were hauling our commissaries gave out. We were compelled to remain amidst the clouds until a train of pack mules were procured. The next day the train was ready, and we continued our march until we reached Ad Junta, where we took possession of the Spanish garrison after firing and wounding a few of them; and O'Old Glory was immediately run up over the village hall, amidst the wild huzzas of the Nineteenth.

We remained over Sunday at Ad Junta, and I attended mass. The church is constructed of wood, without any benches to sit upon, but still it had many interesting points. But I must hasten on, as paper here is worth its weight in gold.

We left the village of Ad Junta on the following Monday and continued our march of conquest. We traversed about six miles and were compelled to desist, from sheer exhaustion, so we went into camp at a nameless town. We remained there three or four days. Here I was first introduced to the principal food of the natives that inhabit the mountains. They call it the plantain, but it is no more than bananas not ripened. After being roasted they taste similar to a roasted potato, and when they are well seasoned, with cod fish on the side, they make a very palatable dish to a soldier.

After leaving our last camping place we proceeded on our march; the country gradually became lower, and the houses and cultivated farms betokened wealthier and a more prosperous condition of the inhabitants. The line of march was through a highly cultivated country—bananas, oranges, mangoes, lemons and coconuts galore, and you may be sure Uncle Sam's warriors partook plentifully of nature's bountiful feast. After a quick march we arrived at the breast works of the city, which was to be ours in a short while. The enemies, "the Spaniards," occupied a very commanding position on the brow of a hill, just overlooking the road we were to come in on, and they were also entrenched in the Catholic Cemetery. To understand their position in the cemetery more thoroughly and intelligently, I shall endeavor to give you a brief but accurate description of the construction of the burying ground. It is surrounded by a wall ten feet high and about two-and-a-half feet thick; about three feet from the ground they had drilled port holes, from which their guns protruded. Above the port holes was a platform built all around the wall inside, which is perfectly square, so you see they were in a position to withstand an attack. But the poor fellows seemed to be distracted, and after we had trained the light artillery on them and fired a few volleys, the white flag was seen to rise above the cross that ornamented the cemetery's gate, and in a few minutes we were domiciled inside the city's gates and occupied the barracks that were once the pride of the Spanish soldiers. On our entry into the captured city Uquado, we were welcomed by the populace, who were loud and generous in their hurrahs for the conquerors. Thus it was pictured to my eyes most vividly the old saying "that nothing succeeds like success," and the thought struck me that the same thing

The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.

ROYAL BAKING POWDER CO., NEW YORK.

would have shouted as lustily, and would have been as exultant had the Spaniards been the victors.

The next day being Saturday I proceeded to view the city, and everything that met my gaze was of interest, but time and paper will not allow me to give you a minute description of everything, so I'll try and write of things that I think will most interest you. Saturday is a half holiday on the island, and the natives from the surrounding mountains came in droves to see the American army, and incidentally to buy their week's supplies. The chief mode of travel is on horse-back, as the roads will not admit of any other travel. Thrown across the back of their mounts are baskets, one on each side and a saddle in the middle. The horses are usually of the type of the American broncho, and travel quite rapidly. But I am digressing. As I went through the city the market place or public place greeted my gaze, and I do not know of any thing or place that would be of more interest to an American. The principal articles for sale are fruit of all description, cigars, cigarettes, tobacco, cocon, candy, codfish, cakes, pies, and there are other articles too numerous to mention.

Overlooking the Plaza is the old Cathedral, of noble construction, built entirely of stone, the spires ascending so high that they seemed as if were contending with the high hills for ascendancy. I do not think I ever witnessed a more imposing sight than that old majestic Cathedral. But the next day being Sunday I attended services, and the beauty of the outside melted into insignificance, when compared with the inside. Every picture seemed a masterpiece, and the altars were marvels of beauty, resplendent with gold candelabras and numerous candles. When the old organ pealed out its sweet notes, one seemed to think that by some magic he was transformed into a different being and a different land; and no matter what I may see, I shall never forget the Sunday I attended mass at Uquado.

The little fellows about Gerald's size go about the street crying their wares, some milk, some candy, each one possessing the same sweet voice. Sunday afternoon my tent-mate, Tom Kinney, and by the way quite a performer on the piano, had the pleasure of spending a few happy hours at the home of one of the leading citizens, who had two dark-eyed señoritas; one of them speaking English very fluently. They played on the piano and sang very nicely, and my friend and myself, he playing and I singing (you know I could sing any old thing as there were not any critics present).

The latest paper we have here in camp is the 23rd of July, so you see we are not quite posted on what is going on in the outside world. They say peace has been declared, but we privates are as ignorant in regard to that as the most ignorant native. They have transferred us from the town to a large sugar plantation on the outside. We are now twenty miles from San Juan and I guess we will start from there. The Seventh Massachusetts and Sixth Illinois are camped on the other side of us, so we can see nothing but soldiers. As for yellow fever I do not think there is any on the island. This is the rainy season, and will continue 'til the 15th September. Write me a long letter. Tell me all that has happened since my departure. I can claim my release as soon as war is settled, and from present indications I shall be in the States by Thanksgiving, or at least Christmas. I will try to collect a few souvenirs while I am here and will have my pictures taken, that is if Uncle Sam feels disposed to pay us, as he has not done so yet. There are many things I would like to write you about, but will have to refrain from as mail does not go out but about once a month, so I want you to get this as soon as possible.

I passed Santiago on the Cherokee and saw the wrecks of the Spanish war vessels. To say I am demented for joining the army, perhaps I am, but money could not repay me for what I have seen, and if I return to the States in good health I will never regret my action. Give my love to all. Tell Gerald I am thankful for this kind remembrance. Remember me to Frank Cady and all others you think would like to hear from me. Tell Billie Mackey he would make a hit in Porto Rico. But he would have to sing out, "Milko, milko, dues centova." Give my love to all. I am affectionately,
 CHARLES E. FITZGERALD.

IRREGULAR BIDDERS.

New York Capitalists Try to Gobble Up the Bonds.

Washington, Sept. 2.—A wide investigation of suspicious bids under the last call for subscriptions to government bonds has been completed by Solicitor O'Connell of the treasury department. The facts developed show a systematic scheme operated by single parties to secure a large amount of the bonds.

The reports indicate that millions of dollars in bonds were acquired by irregular means, and that a number of New York bidders are involved in the cases.

This may result in a refusal to issue the bonds in all cases found to have been illegal.

Secretary Gage said this investigation showed that a large amount of the bids offered were not bona fide, but that in none of the cases involved in the investigation had the bonds been issued to the bidders.

He said he had no doubt, however, that in some instances, as yet undiscovered, bonds bid for in a similar way unknowingly to the department had been issued.

He says he has carefully looked up the law on the subject and all reports to the contrary notwithstanding he is fully entitled to serve as President of the Board if elected, although he had not been a resident of Cook County for five years at the time he was nominated."

THE INSTITUTE.

The Closing Session Was Held Thursday Forenoon.

Proceedings of the Last Day—Resolutions on Miss McDaniel's Death—School Law Changes.

The last session of the Mason County Institute was held Thursday morning, beginning at 9 o'clock. The hymns "Trusting Jesus" and "We're Marching to Zion" were sung. The religious exercises were conducted by Mr. Thos. Hawes.

After roll-call arithmetic was taken up. It is commonly supposed that arithmetic is the most important study taught in our schools. As a means of developing the reasoning powers, it was agreed that mental arithmetic is the most important phase of the general subject, and it is generally neglected in the public schools. A number of teachers took part in the discussion and made many valuable suggestions.

"To what extent ought objects be used in teaching arithmetic?" provoked an earnest discussion. The instructor made the assertion that primary concepts in primary teaching must be taught objectively. Many of the teachers agreed with him; some think objects are unnecessary in primary instruction.

As to how many times a class should be taken over a subject, caused difference of opinion. Mr. Berry thinks the greatest fault with our public schools is lack of thoroughness, and he thinks this is due to the fact that a class is passed superficially over a subject too many times, instead of mastering the subject the first time. The institute heartily agreed with this idea advanced by Mr. Berry.

The instructor was requested to tell the institute to what extent he would teach rules. He would illustrate the principle of the rule by a problem; then he would have the pupil learn the rule, or at least the substance of the rule.

Just before recess Miss Greenhow, of Ripley, recited in a beautiful and impressive manner "The Fate of Sir John Franklin."

After recess Mr. Blatterman read the resolutions on the death of Miss McDaniel, as follows:

WHEREAS, An all-wise Providence has seen fit to send the Death Angel and remove from our midst one of our most faithful and highly esteemed teachers, Miss Eva McDaniel; therefore be it

Resolved, That we, the members of the Mason

County Institute, bow submissively to the Master, and, as we are one family on earth and in Heaven, trust that while one name has been taken from the roll on earth, the same is placed on the roll in Heaven. That we tender our heartfelt sympathy to the bereaved family and commend them to Him who has promised to be with them in all trials and afflictions.

That, as this institute has sustained in her death a severe loss, we will trust that our loss is her eternal gain.

That these resolutions be published in our county papers and a copy sent to the bereaved family.

MISS ALICE DORSEY,
MISS CORNELIA DOWNING,
MR. THOMAS S. HAWES.

The resolutions were adopted.

A committee was also appointed to draft resolutions on the death of Miss Owens, but for some reason did not report.

At this point the Superintendent made some comments on the changes that were made in the Kentucky School Laws since last year. The trustees under the new law are elected on the first Saturday in October instead of in June as formerly. He also explained the mode of transferring pupils from one district to another.

The Superintendent announced that no teacher in the county holds a third class certificate. He also said there would be a Teacher's Association this year, and that the first meeting of the association would be held the second Saturday in October.

At 12 o'clock the institute adjourned sine die. It proved one of the best and most profitable ever held in the county.

THE Dover News' account of the killing of Bert Stubblefield tallies closely with the BULLETIN'S. The News says: "He was making a coupling, and the train was backing slowly. He signaled the engineer to stop, and stepped between the cars to make the coupling and that was the last seen of him alive. After waiting for some time for a signal to go ahead, another brakeman went back and found him dead under the trucks, with the left side of his head horribly mangled. Death must have been instantaneous. The cars had not come together by ten feet, and it is supposed that in changing links from one draw-head to the other his foot slipped and he fell under the wheels."

His body was not run over by "forty cars," nor was it horribly mangled, as stated by another paper.

SUPERIOR

SINGLE DISC
GRAIN DRILL.
Simplicity of Perfection.

The only absolute positive force feed, which can be instantly changed to any desired quantity—a vast improvement over the old style cog wheel feed abandoned many years ago. Can be thrown in and out of gear, allowing the disc to remain in the ground—another improvement over the old style drills.

THE SUPERIOR SINGLE DISC DRILL will do more and better work with less labor than any other drill made. It will sow and cover grain in all kinds and conditions of soil, in hard ground and soft ground, in weeds, corn stalks, crab grass or any kind of vines, without clogging. We have been selling this drill for four years. Ask the users as to their superiority and they will invariably tell you to buy no other and that they are the best drills on earth. The SUPERIOR was the first successful Disc Drill. There are imitations; Beware of them. We solicit your inspection of the Superior before placing your order for a drill.

CUPID breaks his bow at the sight of a face full of pimples. Hollow cheeks, sunken eyes, and a sallow complexion will defy his best intentions. Beauty is more than skin deep. The skin is merely the surface on which is written in plain characters the condition of the body. Dr. Pierce's Golden Medical Discovery is good for the complexion because it makes the whole body healthy—because it clears and purifies the blood, makes the digestion strong and clears out impurities of all kinds. By increasing the ability to assimilate nutritious food, and by the infusion of its own ingredients it enriches the blood and so makes solid, healthy flesh. It cures diseases of the lungs, liver, stomach, bowels, skin and scalp, simply because all these diseases spring from the same cause—a disordered digestion and consequent impure blood.

Curious Italian Cigars.

A curious cigar seen in the Italian quarter of the city, where it is made and sold, is about 7½ inches in length and very slender, being not much bigger around than an all tobacco cigarette, and almost uniform in size for the greater part of its length. At the end that is placed in the mouth this cigar is made around a piece of straw an inch and a half in length, which projects about a quarter of an inch clear of the tobacco. When the cigar is made, a broom splint long enough to reach almost to the lighting end of the cigar is run through the straw, and the cigar is made around that. The broom splint is cut long enough so that a quarter or half an inch of it projects clear of the straw mouthpiece.

When the cigar is to be smoked, the broom splint is withdrawn. The opening through it where the splint was makes the cigar draw freely, and the section of straw at the slender end keeps the cigar open there. These cigars, made of strong, dark tobacco, are sold at retail for a cent each.—New York Sun.

THEY RULE HAVANA.

THE SPANISH VOLUNTEERS AND THEIR PECULIAR WAYS.

They Are Known as Weyler's Pets and For Many Years Have Exerted a Powerful Influence in the Capital of Cuba. Some of Their Pleasantries.

It is generally supposed that the Spanish volunteers in Cuba are the most loyal supporters of Spanish authority in the island of Cuba. That their loyalty is not disinterested any person familiar with the history of the force can never doubt for a moment. They do not even regard the regular Spanish troops with favor, only in so far as these further their own selfish ends and contribute to their personal aggrandizement, and they have frequently resisted the supreme Spanish authority in the island when his policy was not in accordance with their wishes.

Knowing all this, it will not surprise any one to hear that General Blanco, the Spanish captain general of Cuba, had a narrow escape from death recently at the hands of a member of the volunteer force. General Blanco cannot be credited with leniency in dealing with the insurrectionists, but harsh as his treatment of them has been it was not sufficiently so to suit the volunteers. They have been known in this country as "Weyler's pets." His regime of blood was in their estimation an ideal administration, and they long for him, or one equally tyrannical and cruel, again at the head of affairs.

The reported attempt to assassinate General Blanco and a threatened massacre of the Cubans by the volunteers call attention to this peculiar body, of whom so much is heard, but so little known. Many people, on reading of the threat of the volunteers, would suppose that it was aimed at the reconcentrados. A better knowledge of the volunteers will indicate that their wrath is more likely to be directed against the Cuban born autonomists. These have been loyal to the Spanish government, but are suspected of not being strongly opposed to the formation of a republic, in which they would wield a strong influence. It is also evident that the autonomists would benefit greatly if the island were captured and retained by the United States, and they are suspected of being more than willing to see such a course taken.

The volunteer force as it is now is not a very old institution. The original

A GROUP OF WEYLER'S PETS.

volunteers had no political power and were at the mercy of the captains general, who could organize or dissolve the force without fear of exposing themselves to trouble of any kind. But circumstances changed and the volunteers became the real masters of Cuba. The first step in this direction was taken by Captain General Roncali, who, in August, 1894, asked the Madrid government for authority "to arm 30,000 peninsular volunteers, peninsulars only, because," he explained, "I have not enough confidence in the natives of this island to trust them with arms." Roncali's petition was granted, and since then the volunteers have received such accessions of power that they practically dictate the policy of the home government in Cuba. They have compelled the recall of many governors.

In order to encourage Spaniards to go to Cuba and to keep them loyal special privileges were given them. A volunteer is relieved of all other military duty and is only liable for service in his own city. If he is arrested on any charge, grave or trifling, he is not sent to the ordinary prison, but is turned over to the military authorities, his own friends. Almost every Spaniard is a volunteer, and all the judges are Spaniards and volunteers. So the volunteer is tried before one of his brothers in arms. If the case be one between a Cuban and a volunteer, the volunteer always wins.

During the war the volunteers have been allowed to go out into the country and "find" all the cattle and other property which was necessarily left behind by the reconcentrados when they were driven into the cities. The volunteers are made up of the dock laborers, teamsters, clerks, small retailers and those who live by their wits. The officers are wealthy Spaniards, as it costs money to be an officer. The volunteers receive no pay, and the expense of maintaining the organization is met by contributions of the officers.

The volunteers have often refused to obey orders from Madrid. They perpetrated the massacres in the Teatro de Villanueva and El Louvre in 1870.

Put the Gay Deceiver Ashore.

San Francisco, Sept. 2.—The schooner Sophia Sutherland, which left here 13 months ago with a party of treasure seekers for the Solomon Islands, has returned with a cargo of cocoanuts. The men were deceived by the projector of the enterprise, L. P. Sorenson, who was put ashore on the island. The others sailed for Samoa, four of them dying of fever. Captain McLean has a poor opinion of the Solomon Islands, but says the outlook for trade in Samoa is good, as the people are beginning to raise cocoa.

Democratic Executive Committee.

Columbus, O., Sept. 2.—The Democratic state executive committee was selected and organized by electing Hon. H. L. Chapman of Jackson chairman, J. I. Gorman of Lawrence secretary and J. A. Number of Pensioners.

Washington, Sept. 2.—The forthcoming annual report of the commissioner of pensions will show that the number of pensions allowed during the past fiscal year, including the war of 1812, 56,737, of which 54,852 were for soldiers and 1,885 for sailors. Four widows were reinstated and two promoted and 64 orphans and relatives of soldiers were reinstated.

Good Mason County Farm

.....FOR SALE.....

On FRIDAY, SEPTEMBER 2, at 2:30 p. m., there will be offered at public sale, on the premises, the farm of Maurice Coughlin, deceased, lying one mile east of Germantown, Ky., on the Germantown and Lowell turnpike, containing 150 acres, more or less, in good state of cultivation; well watered and well improved, having good pool, stable, barns and outbuildings and all modern conveniences. This is known to be one of the best producing farms in this section, as evidenced by its present crops. It lies on a good turnpike convenient to town, schools, churches, and in a locality noted for health, natural beauty and the genial hospitality of its citizens. Inspection requested and information furnished. Terms to suit purchaser.

J. M. COLLINS, Attorney for Estate, 35 West Third Street.
